Recommendation:	Approve

Assurance level:	<p><b>Substantial</b> <input type="checkbox"/></p> <p><b>Reasonable</b></p> <p><b>Partial</b></p> <p><b>Minimal</b> <input type="checkbox"/></p>
Rationale:	N/A

## 1.0 Executive Summary

- 1.0 This is the Group wide Green Plan refreshed for the period 25/26 to 27/28, informed by progress from both Trust's initial Green Plans approved by their Boards in 2022, and updated referencing NHS England guidance issued in February 2025.
- 1.1 This plan is intended to set the combined Trust's strategic direction, priorities and actions to support its journey to net zero.
- 1.2 The initial approval date for refreshed plans was 31<sup>st</sup> July 2025, but due to our Group approach to developing this plan, NHS England granted an extended approval deadline of 31<sup>st</sup> October 2025.
- 1.3 The plan incorporates 9 key areas of focus with priority areas of activity to be delivered over the lifetime of this plan.
- 1.4 This plan was reviewed by the Finance and Infrastructure Committee on 5 September 2025, and feedback has informed the update to this plan.

## 2.0 Recommendation and next steps

- 2.1 The Board is asked to **approve** this plan, and this document will then be prepared for publication and adoption by 31<sup>st</sup> October.
- 2.2 Over the lifespan of this plan, delivery will be reported to the Finance and Infrastructure Committee on a bi-annual basis.
